RETURN-ON-INVESTMENT

Aloha Takeout provides functionality that improves both the speed and efficiency of site operations. Managing the realities of takeout and delivery operations with these powerful applications allows site personnel to focus their efforts on activities that drive profitable growth.

EXPAND THE WALLS OF YOUR BUSINESS

Over 60% of restaurants now offer takeout or delivery and that number is growing 8% annually. Restaurant operators are looking to grow their business by meeting customer demands for more flexible dining options.

RAPID GUEST IDENTIFICATION AND ORDER ENTRY

Aloha Takeout is optimized for speed. Integrated Caller ID, powerful customer search, secure payment storage, Aloha Loyalty integration and the ability to repeat previous orders make the process of identifying customers and entering orders as fast as possible. Decreased order entry time increases order-taking capacity and reduces customer hold times resulting in higher sales, happier customers and repeat business.

FUTURE ORDER MANAGEMENT

Lost orders become a thing of the past with automated scheduling of future orders. Satisfaction and repeat business increase when customers trust your ability to generate their orders as promised

INTEGRATED MAPPING & DRIVER PERFORMANCE MEASUREMENTS

Delivery capacity increases when integrated mapping brings new drivers up to speed quickly and shows experienced drivers more efficient routes. Driver performance reporting provides coachable data that further improves the efficiency of delivery operations, boosts capacity and identifies potential liabilities.

DETAILED DRIVER ITINERARY WITH GROCERY ITEMS

Forgotten items result in unhappy customers, frustrated drivers and drive-backs that lower overall delivery capacity. Aloha Takeout generates a detailed, printed driver itinerary that includes a summary of all grocery items needed for each run..
